INFORMAL RESOLUTION**To be completed by inmate/resident:**Date: ~~12-29-2021~~ OK 12-30-2021Name (Print): Kristich Orin
Last Name First Name Middle InitialNumber: 998102 HOUSING ASSIGNMENT: Moved from EC to A.N. 244**Description of issue, problem, and solution you suggest:**

D/O Overton, D/O Jauregui, Nurse Casady, Nurse Foster are in violation. (Not the building)
 Under the 8th Amend. of the U.S. Const., the P.L.A., the E.O.A., the Stripping
 Dist. the right, the tort claim, the Care and Federal with
 Oklahoma state law, and the Cimarron Corr. I feel I am being held in a
 Inmate rights to seek medical care as needed, and get medical treatment.
 It is your policy to treat inmates with dignity and respect while
 maintaining a safe and secure environment. However, this is not the case.
 30 hours is way too long to wait for a medical emergency. If you are
 on or off duty, you should be able to get medical care within 30 days a year so lie about not having one does not count.

On Sat. Dec. 25, 2021. CoreCivic Cimarron Correctional Facility
Knowingly, willfully, and intentionally, abused and neglected me/
inmate Kristich. Your actions were in violation of the ~~10th~~
U.S. Const. under the 8th Amend., and all the laws ^{list below} on the facility's
Informal Resolution Form 14-5A, Attached by me. At around 9:00 AM in
Inmate F.C. Room 212. I inmate Kristich dislocated my left shoulder/arm, from
that time to about 7:00 pm, there was no D.O. or staff members in F.C.; for 10 hours
~~could tell~~ I was not able to tell anyone about my injury. When the D.O. working
came into F.C. at 7:00 pm to serve us lunch [not Dinner] I let him know about the
injury; I showed him ^{that} my hand, and arm were very swollen. I told him when it
happened and that I was in extreme pain. I told him that my arm was locked in
place. (At this point a child would know this is an emergency. I told him I needed
to see medical. I seen him tell the Nurse who came in to F.C. at the time. Her name is
either Casady or Foster.) (However, I am not sure because I was given a list of names
of staff involved, and it just says nurse.) 20 min later the nurse working that night
came to the window at room 212. She asked me to take off my shirt, and show
her the dislocation or injury. I asked her to come in the room to help me do
it. Because my arm was locked in place, and I could not do it without her help. She said
no, and walked away. The same D.O. (who is still nameless) asked her to come see me again
because I needed medical treatment. She said "I will after med-pass", but never came back.
At around 10:00 pm D/O Overton was doing count in F.C. I told him, and showed him the same
things. He went to the Nursing Station, and told the new nurse (a man) either Casady or Foster
that I was in extreme pain, and needed to go to medical. The nurse told him that the
prior nurse had told him about the problem, and he was coming to see me soon. About
an hour later D/O Jauregei came into F.C. I told him the same story, I told the first two D.O.
he said he was going to get the nurse. About 30 min later D/O Jauregei came back and told
me that the nurse would come see me, but he needed to ~~pass out~~ pass out all med's
and shots, before coming to see me. (This is not OK, med pass is not an emergency.
All night long I begged D/O Overton and D/O Jauregei to get me medical help.
Every time they came by to check on my room. They said he is coming. He never did.
The pain and suffering was ^{so} bad, that I passed out two different times. This was a great
injustice. By the time I went to two Emergency Rooms, and got treatment, I was in
extreme pain and suffering, for 30 hours or more. I did not even leave to
go to the hospital till 10:26 AM on Dec 26th, 2021. ~~There nothing~~ This was very
brutal and unusual punishment. CoreCivic Staff are telling me it is because you had no
doctor on staff that night. However, CoreCivic was court ordered by the Federal Courts to have
on call doctor 24/7 365 days a year. This is all in your handbook maybe you should read
it. The doctor just did not want to come in. He also tried to tell the same woman nurse, ei-
ther Casady or Foster) to put ^{me} in a sling on the 26th and make me wait a few days for X-ray
at the Facility. When she told me this on the 26th after seeing the dislocation. I told her no I
needed to go to the hospital, and my arm is locked in place and I am in extreme pain. So he
tried to make me suffer more, I went, and the staff at the hospital in Cimarron...

upset and ~~asked~~ your facility when they found out how long
you let me suffer. Everything was well documented by them. Your
~~transport~~ officers admitted your guilt, and abuse and
neglect. I have been told sorry by your staff. However, I am still in
xtreme pain. I am having muscle spasms and nerve pain. I don't yet
know what kind of long term injury or treatment I may need for
it. Moreover, CoreCivic is being put on Notice. I am Indigent in the
courts and will move free of charge. CoreCivic, and their medical staff
alone are the ones who caused 30 hours or more of pain, and suffering;
and abuse and neglect to me inmate Kristich. I ^{am} asking in a very nice way,
that ~~you~~ ^{CoreCivic and staff} pay all of my medical bills, and any other medical bills that come
after in my life, because of your actions. CoreCivic also needs to pay me for
pain, suffering, long-term injury, violating my Constitutional Rights, my prison
rights under the P.L.R.A. and ^{your} own handbook, the ADA. and anything else I would
not from taking legal ~~and~~ action against you in a court of law. If I must
take you to court, to get you to ~~comply~~ do the right thing. I will ask
for even more, including, ~~costs and~~ Attorney fees, and any other
cost.
